KARUNYA S

SOFTWARE ENGINEER

9578769412 | karunyasumi24@mail.com | github.com/karunya-17-s

CAREER SUMMARY

Final-year Computer Science Engineering student with hands-on experience in full-stack web development using HTML, CSS, JS, Python, and SQL. Built responsive web applications, AI-based solutions, and live client websites through internships and academic projects. Strong in problem-solving, collaborative team player, quick learner and adaptable to new technologies. Seeking an entry-level Software Engineer or Full-Stack Developer role to contribute to scalable and user-focused applications.

EDUCATION

B.E. Computer Science and Engineering | Adhiyamaan College of Engineering, Tamil Nadu — Expected: May 2026
CGPA: 8.71 (up to 6th semester)

HSC: 88.2% | Maharishi Vidya Mandir, Hosur — 2020-2021

SSLC: 92.2% | Maharishi Vidya Mandir, Hosur — 2021-2022

TECHNICAL SKILLS

Programming Languages: Python | **Web Technologies:** HTML5, CSS3, JavaScript (ES6+), Bootstrap | **Frontend Development:** React.js, **AI/ML:** Machine Learning, OpenCV, TensorFlow| **Backend & Database:** Node.js (Basic), SQL, CRUD Operations, Supabase| **UI/UX Design:** Figma, Adobe Illustrator | **Version Control & Tools:** Git, GitHub, VS Code, MS Word, MS PowerPoint. **Deployment**: Vercel

INTERNSHIPS

Web Development & AI Intern – PEPS-TECH, Hosur Jun 2025 – Sep 2025 | Jan 2026 – Present

- Designed, developed, and deployed a **live company website** aligned with business and client requirements
- Worked on AI and computer vision solutions using Python, OpenCV and Machine learning techniques.

Key Projects: Pupil detection for brain injury analysis | Thennam product website.

Full Stack Development Intern – Edu-versity, Bengaluru | *Jan 2025 – Feb 2025*

- Contributed to real-world web applications involving frontend interface and databases integration.

PROJECTS

PEPS-TECH Company Website | Web Developer | Live URL: **www.peps-tech.com**

- **Published a live business website** with **basic SEO optimization**, **100% mobile and desktop compatibility**, improving page load performance, improving accessibility and responsiveness.

Chick Crowd Detection System | Python, YOLOv8, OpenCV

- Engineered a computer vision system to detect chicks and analyze crowd density using spatial distance metrics, providing real-time visual alerts through a user-friendly interface. Achieved **~85–90% detection consistency** on test images

AI-Based Gesture Controlled Game | Python

- Built a real-time hand gesture recognition system using Python, OpenCV, and MediaPipe to control gameplay.

Smart Content Summarizer | Web Application

- Architected and implemented a tool to summarize text, URLs, and PDF documents using APIs with database storage support, reducing manual reading time by **60–70%** through automated summaries.

CERTIFICATIONS

- Human-Computer Interaction, NPTEL Online Certification 12-week course (2025), conducted by IIT Scored 86% - Elite + Silver
- UI/UX Design Certification – Udemy (Adobe XD)
- Web Design & Hosting (Value Added Course)– INFOCHORD
